

# UKRAINIAN CANADIAN CARE CENTRE

## Job Opening

**Position:** Registered Nurse                      **Position Number:** Nur-1-2018-03  
**Status:** Casual – Day/Evening/Night  
**Date Posted:** June 12, 2018                      **Deadline:** Open

### **Job Summary:**

The Registered Nurse (RN) is a member of the healthcare team and takes the lead and responsibility for the provision and management of high quality, appropriate and cost effective care to all residents. The RN is responsible for adherence to the respective regulations and relevant legislation in the Long Term Care Homes Act, 2007 and Regulation 79/10, the standards set by the College of Nurses of Ontario; and the policies and procedures of the Corporation and the Accountability Framework. All duties are performed with consideration to the needs, care and satisfaction of the residents

### **Key Responsibilities:**

- Provides nursing care within the framework of quality management and in accordance with the standards and scope of practice as determined by UCCC's organizational standards, policies and procedures and in compliance with the standards of the College of Nurses of Ontario, Regulated Health Professions Act and LTC Homes Act 2007.
- Develops and maintains Resident Care Plans based on ongoing assessments and ensures all documentation reflects accuracy, timeliness, and incorporates input from all healthcare staff in accordance with the organization's policies and procedures.
- Assumes responsibility for medication management including administration, transcription of Physician orders, reordering of medications, appropriate recording and safe keeping of all drugs including controlled drugs and narcotics.
- Monitors the resident's record for accuracy and completeness as required by the professional licensing standards and in accordance with the standards and guidelines of the Ministry of Health as provided in the Long Term Care Homes Act, 2007 and Regulation 79/10.
- Participates in the development of quality resident care services and programs incorporating principles of resident focused care & continuous quality improvement (including participation on committees).
- Assists with the development of orientation, in-services and continuing education plans of nursing and non-nursing personnel ( i.e. volunteers, companions) and keeps current on best practices

### **Qualifications:**

- A Registered Nurse with a current Certificate of Competence with the College of Nurses of Ontario.
- Minimum three years clinical experience preferred
- Long Term Care experience and application of principles of gerontology
- Highly effective interpersonal, problem solving, conflict resolution, and critical thinking skills
